

# Lightweight Pantech Body (Car License)

Less Weight

Increased Payload

Reduced Fuel Costs

## Pantech Body (Car Licence) with tuck-away tail lift.

Purpose-built for car licence applications, the Pantech body from Lightweight Bodies is engineered to maximise payload, reduce operating costs, and deliver reliable day-to-day performance.

Advanced interlocking construction and lightweight panel technology deliver significant weight savings without compromising strength or durability — increasing usable payload, improving fuel efficiency, and reducing wear on tyres, brakes, and drivetrain components.

Designed for real-world delivery conditions, the insulated double-skin panels provide a durable, weather-resistant structure with a clean, professional finish. Modular construction allows fast, straightforward repairs with interchangeable panels, minimising downtime and keeping your vehicle on the road.

# Lightweight Pantech Body (Car License)

## Range Specifications

### Pantech (Car License)

**Size:** 4300L x 2200W x 2100H (Int)  
**Car Licence:** 4500kg GVM  
**Pallet Capacity:** 3  
**Body Weight:** ~575kg  
**Payload:** ~1700kg  
**Volume:** 19.9m<sup>3</sup>

### Pantech - Rental Spec

**Size:** 4300L x 2300W x 2300H (Int)  
**Car Licence:** 4500kg GVM  
**Pallet Capacity:** 3  
**Body Weight:** ~585kg  
**Payload:** ~1650kg  
**Volume:** 22.7m<sup>3</sup>

### Pantech - 6 Pallet

**Size:** 4300L x 2495W x 2300H (Int)  
**Car Licence:** 4500kg GVM | Up To 7,500kg GVM  
**Pallet Capacity:** 6  
**Body Weight:** ~685kg  
**Payload:** ~1550kg  
**Volume:** 24.7m<sup>3</sup>

**Body** – LIDERKIT® aluminium interlocking system.
