

# LIGHTWEIGHT BODY SOLUTIONS

**MULTI-FIT CHASSIS** Fits across all truck makes & models

European-engineered Liderkit truck body systems, available in New South Wales through Distinction Truck Bodies and supported nationally by Lightweight Bodies.

CURTAIN EASYSLIDER RANGE  
**8 PALLET - GVM 7500kg / 9000kg**  
**CAR LICENCE - GVM 4500kg / 5500kg**

## PAYLOAD OPTIMISED

Optimised payload potential and operational efficiency.

## PANTECH & CURTAIN SLIDER OPTIONS

Purpose-built body solutions for a wide range of delivery applications.

## RENTAL & FLEET READY

Designed for durability, reliability and everyday commercial use.

## NATIONAL SUPPORT

Backed by Lightweight Bodies' national support network.

**QLD & NSW  
AVAILABILITY**

**DESIGNED TO PERFORM. BUILT TO LAST.**

Contact us for chassis-body suitability, pricing and dealer supply options.

# LIGHTWEIGHT BODY SOLUTIONS

**MULTI-FIT CHASSIS** Fits across all truck makes & models

## CURTAIN EASYSLIDER - CAR LICENCE

Purpose-built for high-frequency metro deliveries where access, speed and efficiency are critical. Full side curtain access enables rapid loading and unloading from either side, making it ideal for tight delivery windows, urban routes and multi-drop operations.

- 4,300L x 2,200W x 2,100H (Side Clearance)
- Body Weight: 890kg Approx. (Body only)
- GVM: 4,500/5,500kg
- 1,300kg Payload
- Internal Volume: 22.2m<sup>3</sup>

## CURTAIN EASYSLIDER - 8 PALLET

Designed for operators needing greater capacity and stronger load handling, the 8-pallet curtain slider steps up to a more robust, high-volume delivery platform. Full side curtain access enables fast pallet loading and unloading from either side, while the increased internal space supports higher payload movement across metro and regional runs

- 5,200L x 2,495W x 2,240H (Side Clearance)
- Body Weight: 1,100kg Approx. (Body only)
- GVM: 7,500/9,000kg
- Internal Volume: 32.5m<sup>3</sup>

## LIGHTWEIGHT BY DESIGN

Liderkit body systems are engineered using advanced lightweight construction principles to optimise operational efficiency while maintaining durability and structural integrity.

- High-strength lightweight materials
- Corrosion-resistant components
- Precision-engineered fit and finish
- Designed for long-term commercial operation

## BUILT FOR YOUR APPLICATION

Suitable for a wide range of commercial transport and delivery operations including:

- Parcel & freight
- Rental & fleet distribution
- Food & beverage logistics
- General freight
- Urban delivery operations
- Multi-drop applications

## NATIONAL SUPPORT

Lightweight Bodies provides sales, service and parts support across Australia through its trusted national support network.

- Expert product guidance
- National coordination and support
- Genuine replacement parts support
- Australia-wide operational coverage
